These tools are completely segregated by profession, are strictly limited to active Texas judges and attorneys, and are provided by Texas Lawyers for Children (TLC) through the TLC Online Center. (Additionally, separate, private, secure email networks, discussion boards, and document vaults are also available for judges and attorneys handling child abuse and neglect cases.)

The Juvenile Law email networks can be used to:

- receive an answer to a question quickly
- connect with colleagues or mentors for input
- locate a peer for a private discussion by email or by phone.

Proven success. The same types of communication tools have been used since 2008 by the Texas Association of Child Protection Judges, who sent over 190 email messages last year to their colleagues handling child abuse and neglect cases.

Additionally, TLC's Online Center includes **Legal Resources** that provide best practice information from acclaimed experts in the fields of law, medicine, and psychology regarding child abuse and neglect cases. This center is organized to save you time with quick access to over 1200 topics, organized and summarized by experienced attorneys.
